REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: applicant recites an assembly for supporting a rail on a railroad tie comprised of an abrasion plate to be positioned on the railroad tie, a rail pad arranged to fit on top of the abrasion plate and support the rail. The abrasion plate and the rail pad form two distinct layers between the railroad tie and the rail. The assembly is further comprised of a locking mechanism for preventing movement between the abrasion plate and the rail pad. The locking mechanism includes a plurality of bumps and depression uniformly distributed on the facing surfaces of the rail pad and the abrasion plate under the surface of the rail. The bumps and depressions are so arranged so as to mate with each other when the two surfaces are layered together.

The prior art made of record, taken singularly or in combination, does not adequately disclose the features recited in the instant claims. Specifically the prior art does not disclose bumps and depression arranged on the rail pad and abrasion plate under the rail, as recited in the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
